VOLUME 7. MARYVILLE, MISSOURI, MONDAY, JULY 10, 1916. NO. 31.

2 H. S. VACANCIES FILLED BY BOARD

GUY NORRIS, COACH AND MISS EDITH WREN IN SCIENCE.

TUITION NOW $45; GRADE TO COST $27

Miss Mary Rooker, Who Asked Release to Apply Elsewhere, Will Return Again Next Year.

Guy Norris, another graduate of the James Milliken university, was elected manual training and athletic director of the Maryville high school Saturday night to take the place of R. R. Lichtenberger, who refused the place to remain in the St. Joseph schools. Norris is from Charleston, Ill., where he graduated from the high school.

As a manual training teacher Norris has the certificate of having completed all of that work in Milliken. He comes well recommended, particularly since he took the special two-year teachers' course in that branch of work.

His athletic record is even more attractive. He is 22 years old, 6 feet 2 inches tall and weighs 170 pounds. He was chosen all-state center on the first all-state high school team picked in Illinois in 1914. He was a member of his high school track and basketball teams for four years.

Norris was also a member of these teams in the university and a member of the baseball squad. In the state track meets of 1915 and 1916, he took first in the high jump and second in the high jump. His records are 5 feet 10½ inches for the high jump and 22 feet 8¾ inches in the broad. He has won the low hurdle in 27 seconds also. He is unmarried.

Miss Edith G. Wren for Science.

Miss Edith G. Wren of Chilhowee, Va., was elected teacher of science to take the place of Miss Helen Anne Wright of Charleston, Ill., who resigned to take a position in the Blue Island high school near Chicago. Miss Wren received her master's degree from the University of Chicago this spring, having taken for her major subject, physics. She spent one summer in the teachers college of Columbia university, New York.

She is a graduate of Martha Washington college, a junior college for women, which she attended four years. She previously taught in the grades of her home town and after her college days was head of the mathematics and science department of the academy of Athens college at Athens, Fla. She is 25 years old.

The board are specially pleased with the selection of Miss Wren because her recommendations are so very good. She is a member of the Methodist church South. All of her former teachers unite in saying that she will undoubtedly give satisfaction as a teacher in secondary schools.

Miss Rooker Will Return.

Miss Mary Rooker, teacher of mathematics, will return to Maryville again next year. She was offered a very attractive place in the Fayette high school but had already signed a contract here and refused to apply until she could be released. The Fayette place was desirable chiefly because it would make it possible for her to be with a younger sister who is attending Central college there.

The board requested the president to write Miss Rooker again at her home in Chillicothe and urgently request that she return. It is understood from the spirit of her latest letter that she will do so.

The school board Saturday night decided to raise the tuition in the high school to $5 a month or $45 for the school year. It was formerly $3 a month. The grade tuition was also raised from $2 to $3. The annual report of the treasurer was received and accepted. James B. Robinson was then re-elected treasurer of the board and George Pat Wright was renamed as secretary.

Millers to Visit East.

Dr. and Mrs. Jesse Miller will leave July 18 for a two weeks eastern trip. They will visit at Montreal, New York, Washington and Louisville. At the latter place Dr. Miller will attend the national dental convention.

SOUERS FUNERAL TODAY

The Rev. C. Emerson Miller Conducts Services With Burial in Miriam Cemetery.

The funeral of Mrs. Aaron Souers, who died at her home on South Fillmore street at 1:30 o'clock Saturday afternoon of paralysis, took place at 2:39 o'clock this afternoon. Funeral services were conducted at the house, the Rev. C. Emerson Miller officiating. Burial was in Miriam cemetery.

The pall bearers were: W. W. Glass, Jake Melvin, Edward Costello, W. A. Burris, W. B. Porter and James Croy.

The quartet which furnished the music was: Mrs. F. P. Robinson, Mrs. C. A. Bone, H. J. Becker and W. E. Goforth.

FEDS TAKE SHUTOUT

THIEMAN MADE MITCHELL PARKS FALL, 0-4.

3 HITS; 12 STRIKEOUTS

Maryville Boys Start Early and Get Enough in First Inning to Win Game.

The Feds yesterday downed the Mitchell Park team of St. Joseph in a fairly well played game. The score was 4-0. The Feds are playing good ball now and deserved the shut-out over the St. Joseph bunch.

Almost at the start of the game the Feds lost Stewart, who was spiked and had to leave the game. In the second inning he attempted to tag a runner who slid head first and threw his feet in the air. The spikes struck Stewart in the side of the face, cutting a gash about an inch and a half long, three stitches being necessary.

Thieman had the Joe town boys eating out of his hands, allowing them only three hits and making them saw the air twelve times. The Feds scored in the first when Tilson reached first on an error, stole second and third and crossed the counter on Stephen's triple.

They came back with two more runs in the second. Vaughn singled, stole second, McCoy was hit by a pitched ball, Harris doubled, Vaughn scoring and McCoy going to third, from where he counted on Thieman's hit. The final tally came in the fourth as a result of two errors and a fielder's choice.

"Bulger" Walsh, who plays with the Mitchell Parks, was unable to come. He is employed by the Burlington and could not get away. The box score:

W.C.I. FOR "BUNCH"

HAINES EMPLOYEES HAVE GREAT TIME NEAR B. J.

HAD DINNER WITH TOBINS

Then Party Joined Country Club in Program and Social Time Lasting Until Midnight.

The "Haines Bunch," employees of the Haines store went on another "tea," "bat," "stunt," — or call it what you will — at any rate, the bunch went out for another good time together yesterday and had it. They were invited to take country dinner yesterday with Mr. and Mrs. Tobin, who lives two miles east of Burlington Junction.

Mrs. Tobin is a sister of Miss Katherine Vaughn, who has charge of the alterations at the Haines store. About a dozen of them with Harvey L. Haines, the boss, left Maryville yesterday morning at 11 o'clock in automobiles. They remained at the Tobin home until 7 o'clock last night.

Mrs. Tobin's table was decorated in red and white, the Haines colors and a large cake was placed in the center of the table with "Haines Bunch" in red icing upon the white icing. The rest of the meal was a real country dinner with fried chicken and all the accessories.

After supper the Haines Bunch and the Tobins went to the home of Patrick Cummins where the first social picnic of the W. C. I. club was being held. This club has set out to achieve cooperation and sociability and to outharmonize harmony. After a program of music, readings, and social fun, a picnic supper was served.

The Maryville crowd did not get started for home until midnight. Those in the party were: Harvey L. Haines, Clara Sherlock, Stella McDowell, Elizabeth Heffern, Bertha Schmauder, Ella Noll, Anna Stapler, Gladys Ford, Katherine Vaughn, Irene Redfield, and Harley Hughes. The following program was given last night:

Program by W. I. C. Members.

I.—Song by chorus; music by Mrs. W. J. Fox and by Miss Golda Pope.

II.—Reading by Father Patrick Cummins, Jr.; Music by Mrs. Carter and by Miss Irene Tobin.

III.—Readings by Frank Tobin and Leander Cummins; music by Miss Golda Pope.

IV.—Reading by Miss Irene Tobin and talk by Father Cummins with more music.

V.—Readings by Afnes Sherlock and Fred Messbarger; piano solo by Miss Gladys Pope.

VI.—Music by Miss Bertha Schmauder and talk by Mr. Haines.

VII.—Reading by Miss Agnes Sherlock of Des Moines, and another reading by Father Cummins.

The program was given in sections so that social mingling might be possible between these parts. Just before the picnic supper, Father Cummins read a toast to the Haines Bunch which caused much laughter. It reads:

The ladies are ready to serve your lunch.

But before you begin, your portion to munch;

And your neighbor begins, his cookies to crunch;

You'll do well to give your neighbor this hunch:

Beware of that poetry-shouting H. L. Haines Bunch.

Father Cummins is at home on a vacation from Conception College where he is a member of the faculty. The Haines Bunch say that he was the "life" of the party last night. Other members of the W. C. I. club who were present were:

VILLA HAS A "BEE"

BANDIT LEADER AGAIN LOOKS TOWARD PRESIDENCY.

FORCES AND FUNDS BIG

Carranza Reports That Outlaws Are Planning to Attack Texas Border at Bouquillas.

Special to The Democrat-Forum.

El Paso, July 10.—Villa again aspires to be president of Mexico. His border agents have been conferring with the representatives of the American ammunition plants and it is believed that rifles and cartridges have been smuggled over the border.

It is said that Villa has already planned his cabinet and decided on his form of government. He is said to have announced that the first law of Mexico under his government would be that no Americans would be allowed to enter the country.

The fact that a supply train has left Columbus for Pershing's military base has led to the report that he is again planning to start on a hunt for the bandit but it has no confirmation.

Villa Again Has Funds.

Washington, July 10.—Reports that Villa is again in funds and is adding great masses of deserters from Carranza are reaching the state department from many sources. The information, though unconfirmed, has been forwarded to Funston.

Much Dynamite in Columbus.

Columbus, July 10.—Enough dynamite to blow Columbus off the map was found in the Mexican quarter by the government secret service. Three Mexicans have been arrested and are being held as suspects. Five hundred feet of fuse was found in one of the Mexican homes.

Carranza Reports Expected Raid.

Washington, July 10.—Arredondo reported to the state department today that Villa was planning a raid on the Texas border near Boquillas. The information was immediately sent to Funston. The Mexican ambassador did not know the size of the force or any other details.

More Carranzistas to Oppose.

El Paso, July 10.—Consul Garcia announced that a thousand more Carranzistas had been sent to the Jiminez district to oppose the advance of the Villistas under Contrera.

1,031 N. Y. CASES NOW

103 MORE INFANTS STRICKEN AND 14 MORE DIE.

Congress Waiting for Program—Two Reported at Moberly.

Special to The Democrat-Forum.

New York, July 10.—There have been 1,031 cases of infantile paralysis to date in New York City. One hundred and three new cases have developed in the last twenty-four hours and fourteen deaths have occurred during the same period.

Showers and cooler weather improved the conditions considerably.

National Administration to Act.

Washington, July 10.—Administration leaders discussed forms of legislation necessary to combating the infantile paralysis epidemic. As soon as the program is decided upon congress will act.

Two Cases at Moberly, Mo.

Moberly, Mo., July 10.—Two cases of infantile paralysis are reported here.

A. E. Otis, son of Mr. and Mrs. Ed Otis, spent the last few days in Maryville visiting his parents. Mr. Otis is from The Dalles, Ore., and was on his way to New York City.

I will be out of town from July 18 to the 30th and my office will be closed.

GIANT U-BOAT OVER

AFTER MANY RUMORS FREIGHT SUBMARINE ARRIVES.

Baltimore Celebrates as German Craft Reaches America Safely Through the Blockade.

Special to The Democrat-Forum.

Baltimore, July 10.—The world's first submarine merchantman, the German underwater liner Deutschland, anchored below Baltimore last night after voyaging safely across the Atlantic, passing the allied blockading squadrons, and eluding enemy cruisers watching for her off the American coast. She carries mail and a cargo of 750 tons of costly chemicals and dyestuffs, and is to carry back home a similar amount of nickel and crude rubber sorely needed by the German army.

Fifteen days out from Bremerhaven to Baltimore, the submarine reached safety between the Virginia capes at 1:45 o'clock this morning, passing in on the surface covered by a heavy pall of darkness which settled over the entrance of the bay with the setting of a tell-tale half moon. Once inside, the visitor threw caution aside and began shrieking his siren signaling a pilot, and at the same time attracting the attention of the tug Thomas F. Timmons, which had been waiting in the lower bay for nearly two weeks to greet the Deutschland and convey her into port.

Formal Reception Today.

Four hours later, at 4:45 o'clock this morning, the big submarine started up the bay with the German merchant flag flying, under her own power, piloted by Capt. Frederic D. Cooke of the Virginia Pilots' association, and convoyed by the Timmons. She was making more than twelve knots an hour, and could have docked in Baltimore tonight, but arrangements had been made for receiving her with formal ceremonies tomorrow, and her captain was ordered to wait in the lower harbor. He and his crew of twenty-nine men remained aboard their craft.

Little was known here tonight about what happened during the epoch making cruise across the ocean, which, in a small measure at least, breaks the blockade on German trade with the rest of the world. None of the submarine's crew had landed and the agents of her owners had received only meager reports. Such information as was available came directly from the pilot and from Capt. Hans F. Hinsch of the North German Lloyd liner Neckar, laid up here since the beginning of the war. Capt. Hinsch boarded the Deutschland from the Timmons and made the trip up the bay with her.

According to the accounts reaching here, the underwater liner's superstructure was standing fifteen above water when she came in.

Special to The Democrat-Forum.

Bucharest, July 10.—Twelve thousand British with enormous supplies are being sent to Caucasus to co-operate with the Russians against the Turks. The British are understood to be on the way from Archangel to Tiflis.

Desperate Battles on Somme.

London, July 10.—A desperate battle of forty-eight hours duration rages around the Trondes wood between the British and the Germans. The scene of the engagement is near Bapaume on the Somme river. The Germans penetrated the trenches at one point and were later driven back. The French report slight gains further south.

BALTIMORE CUSTOMS OFFICIALS SET COMMERCIAL STATUS.

DIPLOMATIC FIGHTS ARE SURE TO FOLLOW

State Department Requests Naval Officers to Examine U-Boat and Report Soon.

Special to The Democrat-Forum.

Baltimore, July 10.—Collector of Customs Ryan formally gave the German submarine Deutschland the status of a merchantman. Customs inspectors boarded the vessel to examine the cargo and reported that the Deutschland contained nothing which is not permitted to be imported into this country.

It is announced that the Deutschland will be followed within a short time by the Bremen of the same line, resuming the trade between the United States and Germany. The custom office said the submarine carried only two small guns for signaling purposes and had no torpedoes or torpedo tubes.

Government to Investigate Boat.

Washington, July 10.—Naval constructors working under the orders of the government will examine the Deutschland and will report on its status. This will be done at once to determine whether the report of the Baltimore collector will be upheld.

Both France and England have formally called the attention of the United States to the presence of the huge submarine and have asked the state department for its status.

Means Long Diplomatic Struggle.

Baltimore July 10.—The successful trip of the huge submarine will be the basis of a great diplomatic struggle between the German allies and the other combatants. Strenuous efforts will be made to force the neutral countries to admit that the British blockade i sillegal.

DRAGOO SUES H. N. MOORE

Republican Candidate for Sheriff in Fight With Neighbor and Is Sued for Damages.

John F. Dragoo brought suit today for damages against Henry N. Moore, who is a candidate for the Republican nomination for sheriff. Dragoo and Moore are neighbors and, according to the petition filed, Moore assaulted Dragoo last Sunday, the latter receiving many blows on the face and body.

The plaintiff alleges that his right eye was permanently injured to the extent that he is deprived of the sight thereof. Damages for $5,000 actual and $2,500 punitive are asked for. Cook, Cummins & Dawson are the attorneys for the plaintiff.

Dragoo had Moore arrested and Moore pleaded guilty to the charge of assault and battery before Justice of the Peace W. L. Johnson last Wednesday and was fined $1 and costs.

ON ANCIENTS' DUST

AMERICAN SOLDIERS AT COLONIA DUBLAN UNEARTH VILLAGE.

LIVED 2,000 YEARS AGO

Wonderful Bits of Pottery But No Metal Found in New Remains Which Scientists Are Exploring.

Special to The Democrat-Forum.

General Pershing's headquarters Colonia Dublan, June 9. Via motor to Columbus, N. Mex., July 10—This camp is built upon the dust of an ancient race, a people so ancient that only the merest fragments of their history have been "dug up" by research parties from Mexican and American archaeological institutions.

Dug up in this instance is literal, for the scientists who have explored in this region from time to time have had to dig deep into the earth to carry on their work. About the only tangible things relating to this little known race found by the explorers are scores of pieces of wonderfully colored pottery. That this fragile stuff should endure through all the centuries, while nothing else remains, is remarkable.

Not a single bit of metal has been unearthed so far as is known. No vestige of a written language has been discovered.

Estimates of the antiquity of this people vary widely. Some Mexican scientists have guessed that the race was at least ten thousand years old. Most of the scientists who have explored in this valley agree that the race died out from 1,000 to 2,000 years ago.

Pre-Historic Archaelogy.

Centuries before the dauntless Spanish explorers and missionaries pushed northward into this wild region, skirting the high-peaked Sierra Madres, the dust of ages had begun to obliterate the adobe huts and the graves of these ancients.

Except for the general term of Indian no name has been assigned to them and it is very doubtful if they were of the Indian stock that peopled North America when Columbus landed.

What kind of dwellings did these Indians inhabit? No one knows Near the two hundred year old town of Casas Grandes, seven miles southwest of Camp Dublan, scientists have excavated to a depth of fifty to a hundred feet and have discovered the clay vessels used by these people for cooking and drinking, but nothing to indicate what manner of houses they lived in (if, indeed, they dwelt in "houses" at all) has been brought to light. No stone implements or weapons have been found.

When the pottery was discovered many valuable specimens were lost because the first explorers did not take proper precautions against exposing them to the air too suddenly. When exposed immediately to the air they soon crumbled to dust.

The Harvard museum contains the finest individual collection of this pottery. It was sent to the institution by Mrs. E. C. Houghton, wife of the manager of the Corralistos ranch, where many of the relics have been found. One thing is known positively about this race—that they were expert in the preparation of colors that would last for centuries. The red, blue and orange colorings on most of the clay pots and drinking vessels are as fresh and brilliant today as they were when they were first burned into the clay.

Crude patterns of a semi-geometrical design were painted on some of the pottery. Mexican scientists who have poked around "in the ruins" of this valley believe that the dead race was one of dwarfs. That they were fallie worshippers is almost certain, as their pottery shows. Many of the pieces are hollow statues of dwarfed men and women with the creative organs grotesquely enlarged.

This fact has given rise in some scientific circles to the theory that this strange people was in some way related to the old fallie worshippers of prehistoric Greece and Southern Europe. One Mexican archaeologist has even advanced the theory that the fabled "lost Atlantis" was a continent connecting Europe with America over which the fallies of the eastern hemisphere migrated thousands of years since to this remote region.

WHAT "BOOTLEGGERS" HAVE

Colorado Anti-Saloon League Discovers Method of Filling Sealed Bottles of Whisky.

Special to The Democrat-Forum.

Denver, Colo., July 10.—Electric needles are being used by the so-called national boot-legging syndicate, which is producing adulterated whiskies for sale in prohibition states. The vile concoction has blinded several persons here.

The drinker buys whiskey from a bottle bearing the United States revenue seals and apparently untampered with. But a close inspection reveals that a tiny hole has been drilled in the bottom of the bottle and then filled up again with liquid glass.

From one quart of good whiskey the syndicate, which operates in many states, makes seven quarts by the addition of prune juice, tobacco juice, wood alcohol, red pepper and other things.

The Colorado Anti-Saloon League, which uncovered the operations of the syndicate, is preparing drastic legislation to root out the insiduous evil.

75 ENJOY W. O. W. PICNIC

Proved That Real Fish Can Be Caught at Bridgewater—Grundy Makes Strange Haul.

The W. O. W. and Woodmen Circle enjoyed a real outing at Bridgewater yesterday. About seventy-five were present and made the trip there and back in Kelly's big busses and a few individual cars. A scrub game of picnic ball was played and the rest of the day was spent in fishing and swimming, both men and women taking advantage of the water near at hand.

They say that "Fatty" Grundy has a ne wway of fishing. He sits down in the water and lets the fish swim up the leg of his trowsers. He caught a good fish that way yesterday. The whole party made a fine catch of fish during the day.

The ladies spread a big picnic dinner. The picnicers returned about seven o'clock yesterday evening.

Guests at Bratcher Home.

Miss Venice Bratcher and her brother, Earl Bratcher of Pickering spent the week-end in St. Joseph visiting friends and relatives. They were accompanied home by their cousin, Mrs. Charles M. Sox, and her daughter, Miss Edna Sox, who will visit with the Bratcher family for a few days.

Mr. and Mrs. Sam Pettigrew of Bolckow and Mr. and Mrs. Ed Houseman of Rosendale visited in Maryville Sunday with Mrs. Emiline Tilson.

MRS. PISTOLE DIES IN N. M.

W. B. Pistole Will Bring Mother Back to Hopkins for Burial.

A telegram to Hopkins from W. B. Pistole tells of the death of his mother whose body will be brought back to that city for burial. Her death took place at Artesia, N. M., where she had gone for her health soon after the death of her husband two years ago. The funeral will probably be held in Hopkins Wednesday.
